E X T E R I O R

While designing our new collection, we tried to understand the concept of beauty which is absolute and indisputable in nature and discover and use visuality which contributes to the realization of this phenomenon.

We have sometimes witnessed this in the colors of a butterfly wing's photograph which was enlarged hundreds of times, sometimes in the proportions of the curves created by the wind in the dunes of the desert and at times in a natural mineral which takes millions of years to form giving shape to light like a sculptor.

This methodology has acted as our compass in all of our product development processes.

•

Yeni koleksiyonumuzu tasarlarken, doğada mutlak ve tartışmasız olan güzellik kavramını anlamaya ve bu fenomenin gerçekleşmesine katkı sağlayan görselliği keşfedip, kullanmaya çalıştık.

Bunu kimi zaman bir kelebeğin kanadının yüzlerce kez büyütülmüş bir fotoğrafındaki renklerinde, kimi zaman rüzgarın, çölde oluşturduğu kum tepelerindeki kavislerin oranlarında, kimi zaman da oluşumu milyonlarca yıl alan doğal bir mineralin, bir heykeltıraş gibi, ışığa form verişinde gördük.

Bu metodoloji, tüm ürün geliştirme süreçlerinde bizim pusulamız oldu.
